

HawkEye 100A

Digital Control Head

Blue Sky Network's revolutionary HawkEye 100A is the industry's first installed aviation certified wireless Digital Control Head. This compact and feature-rich panel-mounted accessory provides a Bluetooth link to your favorite smart-phone or tablet, enabling wireless Iridium satellite based dialing and voice calling, two-way email, and preset messaging capabilities in the cockpit; essential functionality in the fleet management industry's movement towards paperless operations and Electronic Flight Bag systems.

Seamless Wireless Communications, Anywhere.

The Power of Bluetooth

Brings the power of wireless Bluetooth technology to an aviation certified installed solution. Enables Iridium satellite voice, preset and free-form messaging, and EFB capabilities in the cockpit, from the convenience of your favorite smart-device.

Small Form Factor

As with the HawkEye 7200A, the HawkEye100A is a similarly small form-factor device. It is standard width, fitting neatly in Dzus rails, making it an easy device to mount in the cockpit, and minimizing vital instrument space utilization.

Emergency Mode

Pressing the Quick Position (QPOS) button immediately sends events to the SkyRouter system, operators are notified on the Track page, or by configurable SMS and email alerts.

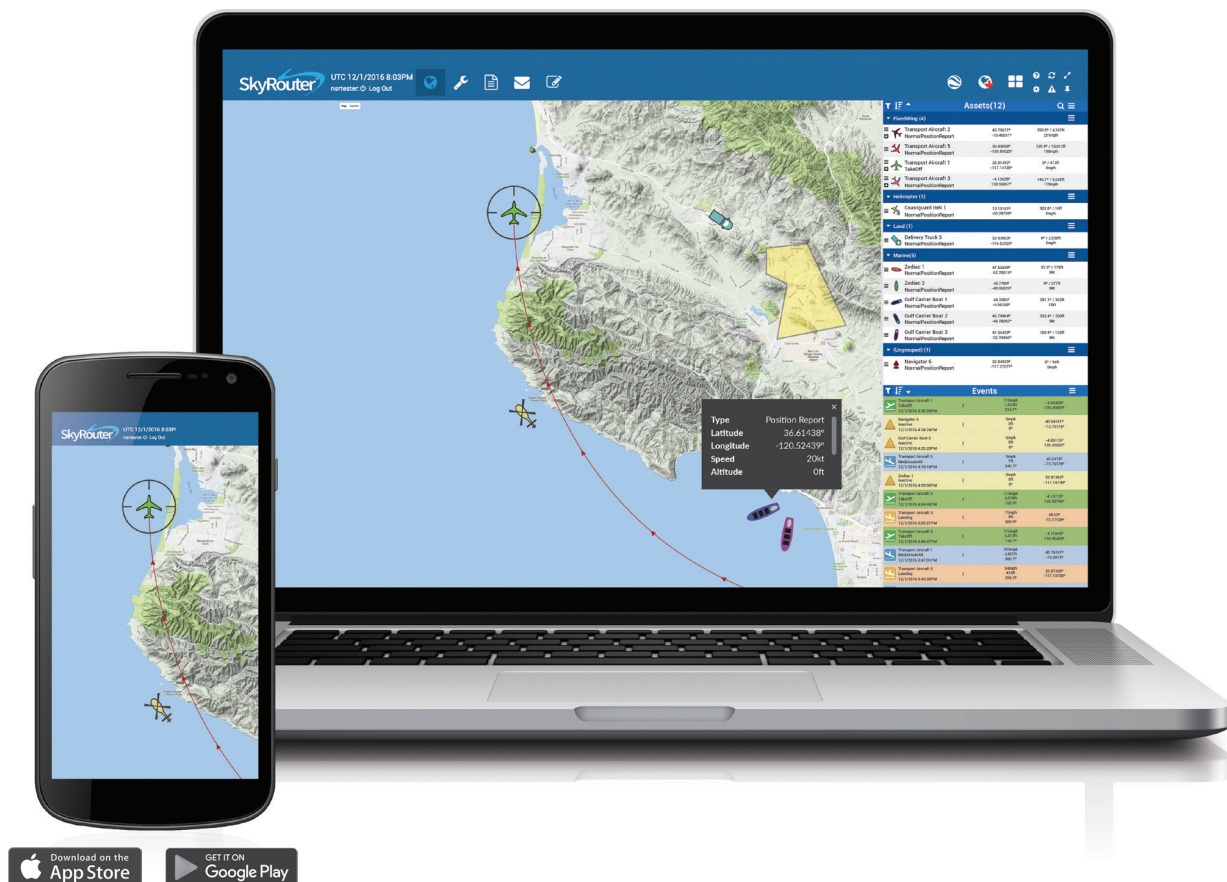

Flexible Voice Integration

Call/dial from your smart-device, connect a standard aviation headset, integrate with a third-party audio panel, or connect a wired or wireless POTS phone to access seamless Iridium voice services, with truly global coverage.

Features of HE100A + HE7200A and SkyRouter

Completely Secure

Hosted on fully redundant servers in state-of-the-art data centers, our Data Center has completed an SSAE16 audit with zero exceptions and is compliant in SOC 1 type 2 and SOC II Type 2.

Emergency Alerting

Instantly notify flight operations with the press of a button. When enabled, the Quick Position (QPOS) button immediately sends emergency events to the SkyRouter system and notifies configured contacts.

Truly Mobile

Unleash the full capabilities of SkyRouter on your favorite mobile device; SkyRouter is fully compatible with and available for download on any Android or iOS device.

Seamless Communication

Communicating with the aircraft has never been easier than with SkyRouter and the HawkEye 100A. Providing uninterrupted two-way Iridium voice call capabilities, two-way email and preset short code messaging to the cockpit.

Certified homologation to operate in Brazil and Russia
